Science Time!

Geo's Journey: Secrets of the Layers

Geo found a glowing key in Grandma's garden.
Suddenly, an elevator rose from the ground.
Geo stepped in.

What could be inside?

The elevator sank deep and stopped.

Big bones and red cliffs were all around.

**Welcome, little explorer!
I'm Meso, from the dinosaur age!
Dinosaurs ruled this land!**

**Meso showed a leaf in stone.
Geo gently touched the rock.**

**Fossils are
memories of time!**

**The elevator went deeper.
In a blue glow, Paleo appeared.**

Paleo showed a trilobite fossil.

**I'm from the sea
before dinosaurs.
All life began
in the sea.**

Tiny lights floated in the deep.

I'm Preci.
I remember the first spark.
Only tiny life lived back then.

**Geo rose back up through the layers.
Everyone waved goodbye.**

**The Earth isn't just rock.
It's memory.**

Welcome to the Earth Elevator!

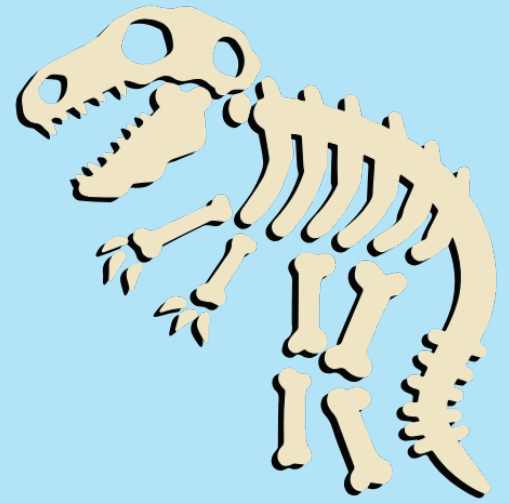

This is **Meso**.
He is from Mesolithic
age, when they ruled
this land!

This is **Paleo**.
He's from seas
before Dinosaurs!
He's Paleolithic age.

This is **Preci**.
She's the oldest one
here. She's from
Precambrian!

Geological Eras

Draw a line from each layer's name to what it does!

Mesozoic

Time when mammals appeared and the Earth got cooler!

Paleozoic

Fish and amphibians filled the sea and land!

Cenozoic

Dinosaurs ruled the land in a warm, tropical world!

Precambrian

Tiny, squishy animals lived in Earth's earliest oceans!

Geological Eras

Use the words listed in the word bank to label each part of the geological eras.

Cenozoic

Mesozoic

Paleozoic

Precambrian

A _____

B _____

C _____

D _____

Exploring Fossils

Name a fossil animal found
in each time period

Modern mammals

Monkeys

Apes

Jawless fish

Early mammals

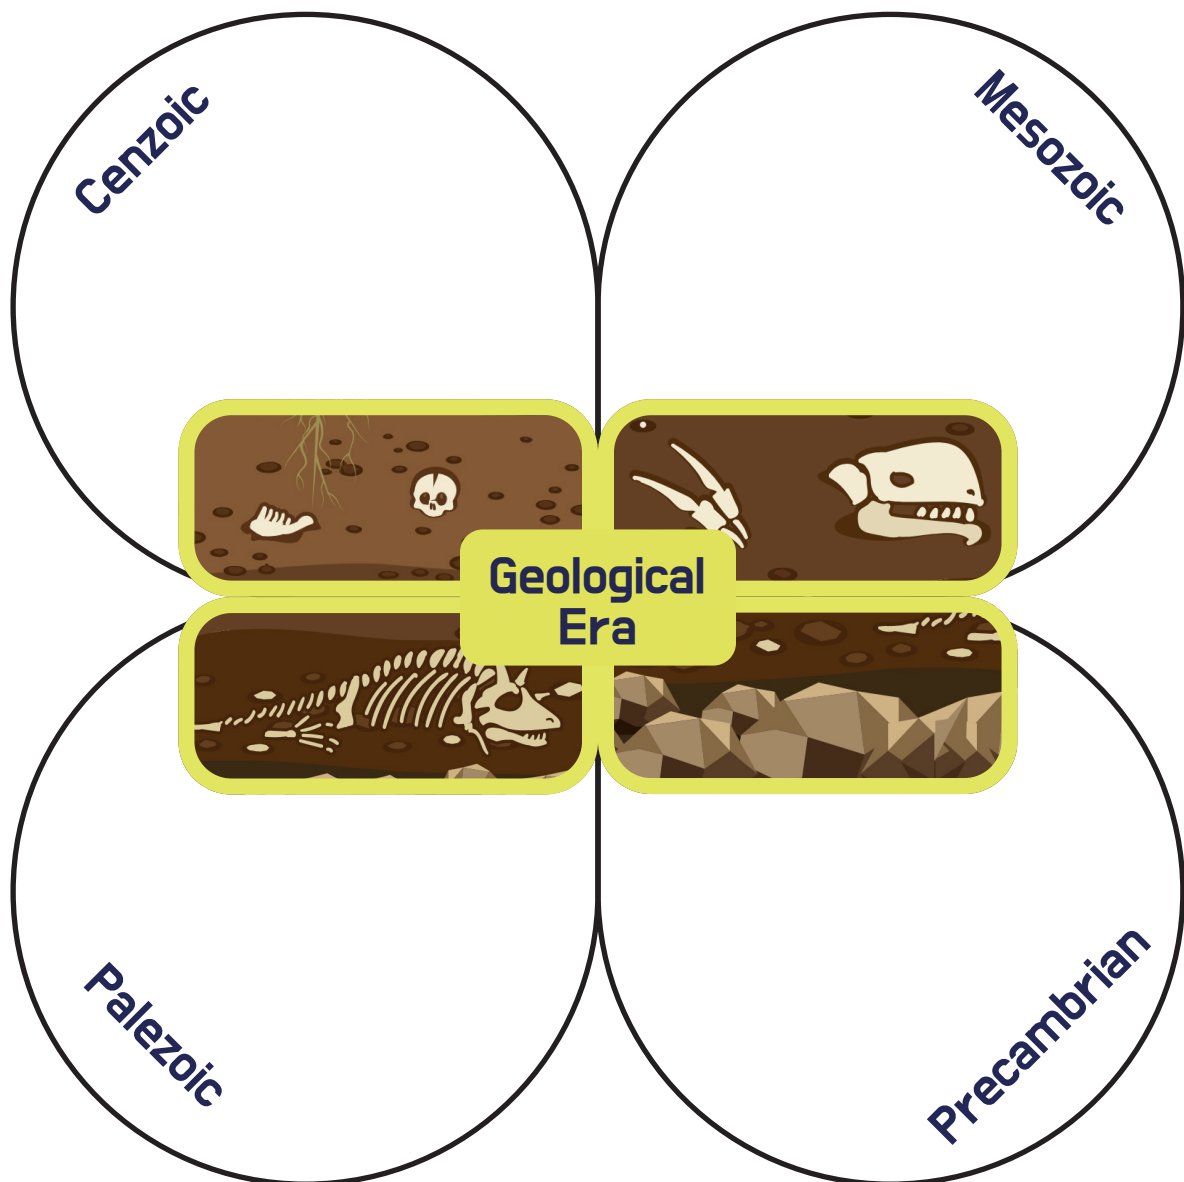

Dinosaurs

Reptiles

Invertebrates

Amphibians

Jawed fish

Unscramble the Sentences

Put each word in the correct order and rewrite the sentence.

jaws

swam

strong

fish

with

1 _____

animals

bones

no

soft

had

2 _____

dinosaurs

ruled

land

the

giant

3 _____

climbed

trees

playful

monkeys

4 _____

Keyword Practice

Cenozoic

Time when mammals appeared and the Earth got cooler!

_____	_____	_____
.....		
_____	_____	_____

Mesozoic

Dinosaurs ruled the land in a warm, tropical world!

_____	_____	_____
.....		
_____	_____	_____

Paleozoic

Fish and amphibians filled the sea and land!

_____	_____	_____
.....		
_____	_____	_____

Precambrian

Tiny, squishy animals lived in Earth's earliest oceans!

_____	_____	_____
.....		
_____	_____	_____

Modern mammals

Big, furry animals lived during the Cenozoic.

_____	_____	_____
.....		
_____	_____	_____

Monkeys

Playful climbers with tails appeared in the Cenozoic.

_____	_____	_____
.....		
_____	_____	_____

Apes

Smart animals swinging in trees lived in the Cenozoic.

_____	_____	_____
.....		
_____	_____	_____

Keyword Practice

Early mammals

Tiny, furry creatures hiding from dinosaurs lived in the Mesozoic.

Dinosaurs

Giant reptiles that ruled the land during the Mesozoic.

Reptiles

Scaly animals that loved the sun appeared in the Paleozoic.

Amphibians

Water animals grew legs and stepped onto land in the Paleozoic.

Jawed fish

Fish with strong jaws swam through Paleozoic oceans.

Jawless fish

Simple fish with no jaws lived in the early Paleozoic.

Invertebrates

Soft, boneless animals first lived in the Precambrian.

The Cookie Before the Cookie: A Sweet Story from Ancient Times!

Long, long ago, in ancient lands like Egypt and Mesopotamia, life was very different. They didn't have big supermarkets or cookie boxes.

**But archaeologists found a secret:
ancient people did have a kind of cookie!**

This wasn't our cookie, but a clever invention for travelers and soldiers. It was perfect for their grand expeditions.

Merchants crossed vast deserts and soldiers marched for many days, far from home.

**For these long journeys, they needed provisions that
wouldn't spoil.**

**So, the earliest bakers used simple grains like barley or
emmer wheat.**

To add a delightful taste and energy, they added sweet honey from bees.

Or, they would mix in mashed dried fruits, like dates.

They carefully flattened the mixture into thin, sturdy discs.

Then they baked them until they were hard and crunchy, often under the hot desert sun. This helped to preserve the food!

These hard, simple “cookies” were indispensable for their travels. They could last for weeks in a soldier’s pack.

They were their trusty companions, fueling their long marches and adventures.

These simple objects were like tiny time capsules. They hold the essence of ancient life!

These ancient cookies offer us valuable clues about how people lived, traveled, and ate in Ancient Egypt and Mesopotamia.

These humble biscuits reveal the very first idea of a sweet, portable treat.

So, when you eat a cookie, remember its amazing ancestors—the “cookies before the cookies” that helped people explore their world!

Word Match!

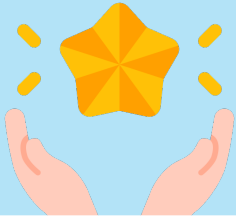

Draw a line to match each word with its meaning:

Archaeologists ○

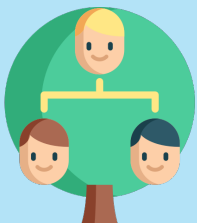

Provisions ○

Indispensable ○

Preserve ○

Ancestors ○

○ The people who lived in a family long, long ago.

○ Food and supplies people need for a journey.

○ People who love to find and study clues from the past.

○ Something so important you can't be without it.

○ To keep food from going bad for a long time.

The Story of Cookie

Mark the events in the order they happened:

A

B

C

D

Ancient bakers mixed simple grains and water.

Travelers carried the hard cookies on long trips.

Archaeologists found clues about the cookies in old places.

The bakers made the cookies hard and crunchy to last a long time.

Think and Explain

Use your imagination and what you learned from the story to answer these questions!

Why did ancient travelers need their cookies to be hard and crunchy instead of soft and fluffy?

Hint

Think about what happens to different kinds of food on a long journey.

If you were an ancient baker, what special ingredient would you add to your cookie to make it delicious for a long trip?

Hint

Think about foods that don't spoil easily.

Yes or NO!

Circle the right answer for the sentences below

Ancient cookies were soft and filled with chocolate chips.

Yes /

No

Archaeologists found clues about ancient life from old objects.

Yes /

No

Ancient bakers used ingredients like barley and honey.

Yes /

No

Travelers in ancient times used cars to go on their journeys.

Yes /

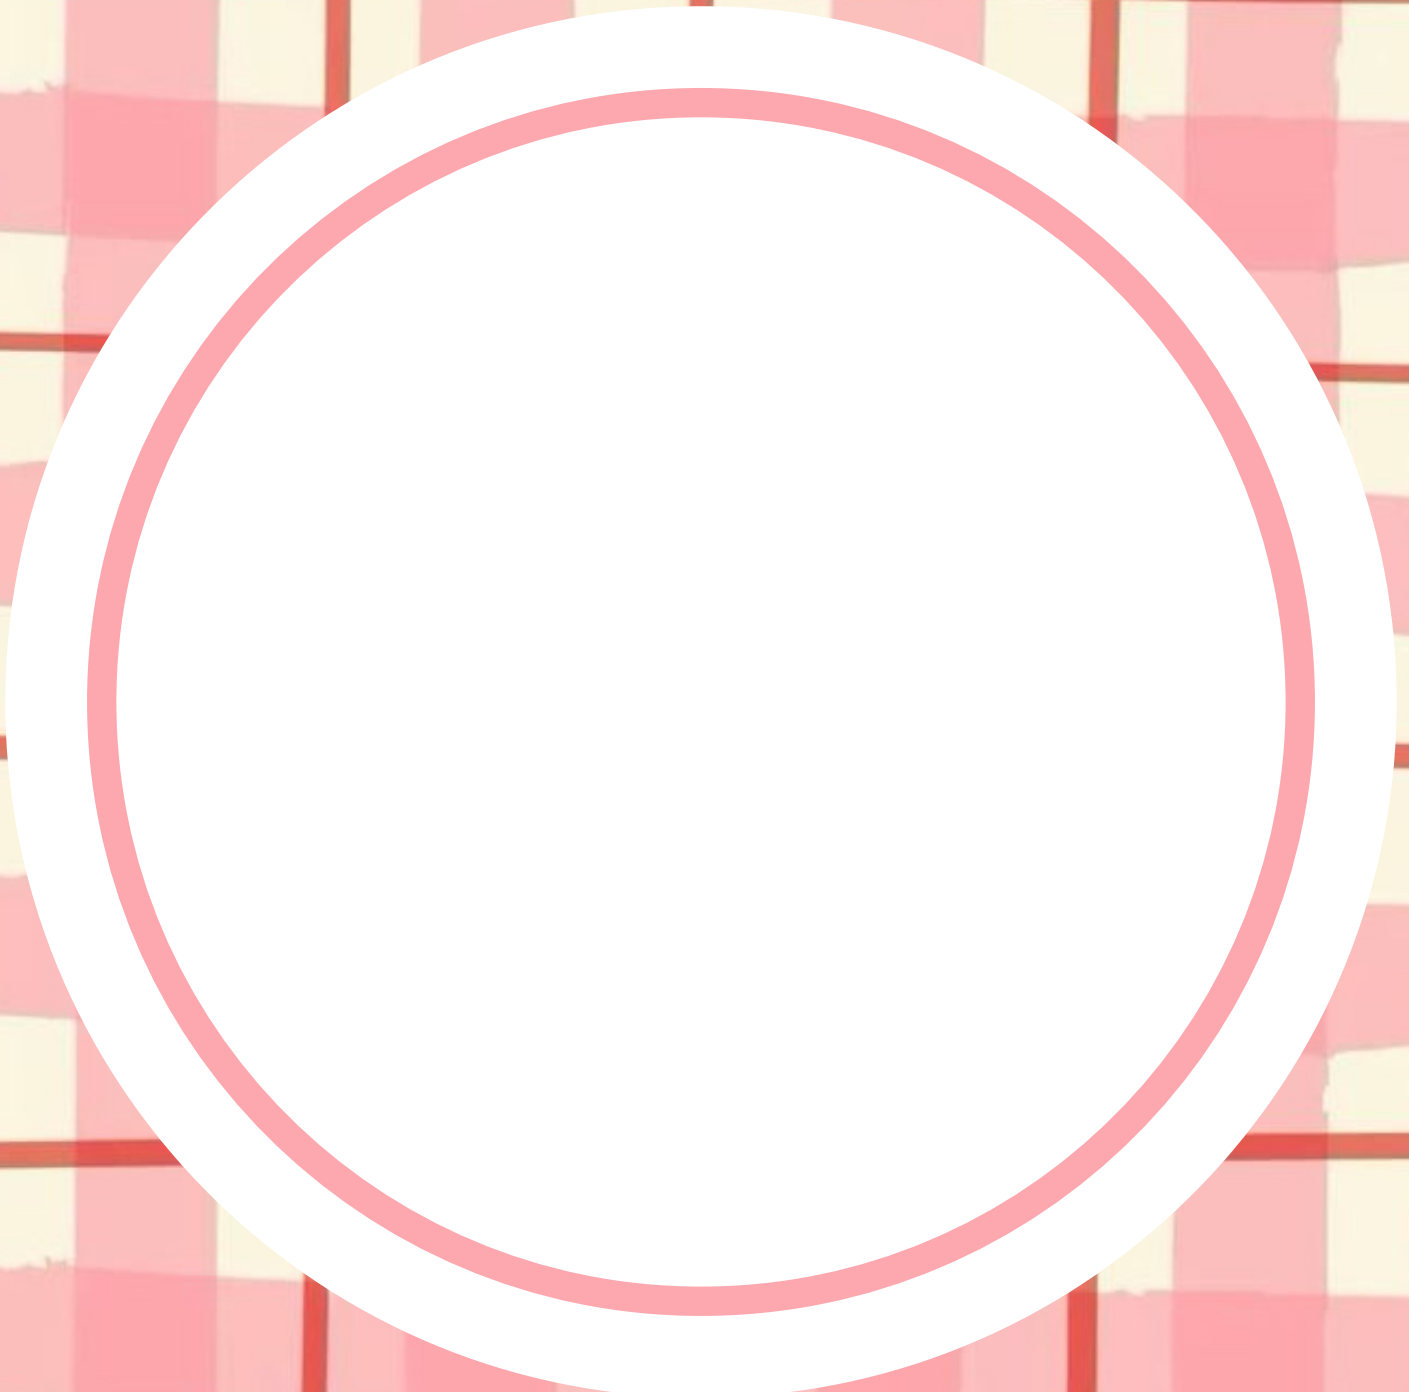

No

**for exploring history of
Cookies and understanding
its origin!**

Date:

Let's Explore Our Yummy Food!

My Food is called: _____

I made it today on: _____

Can you draw your food here?

Don't forget the cookies, cream and anything else!

What does it feel like?

Is it soft, hard, squishy, or smooth?

It feels like:

What does it smell like?

Is it yummy, spicy, cheesy, or sweet?

It smells like:

What does it taste like?

Is it salty, cheesy, juicy, or yummy?

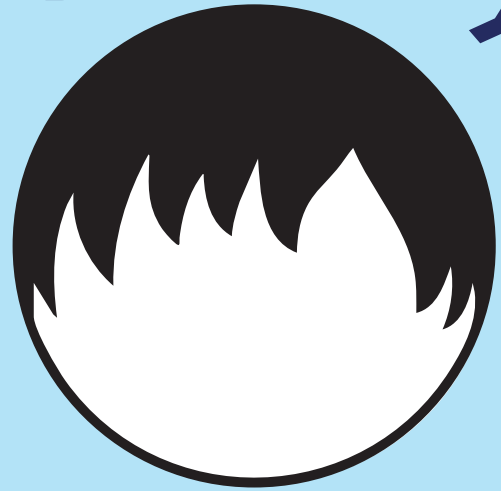

It tastes like:

What if it didn't exist?

If we didn't have this food, we would feel...

How am I Feeling today?

Draw your feeling face!

Pick your feelings!

Circle the words that match your feelings:

Happy

Sad

Angry

Upset

Worried

Scared

Nervous

Confused

excited

Surprised

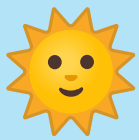

Talk to your teacher or a friend,
or draw/write what made you feel this way.

Can You Guess Their Feelings?

Draw a smiley face 😊 for happy, a teardrop 😞 for sad, or a red face 😡 for angry.

Try Writing the Feeling Words:

Happy

.....

Sad

.....

Angry

.....

Scared

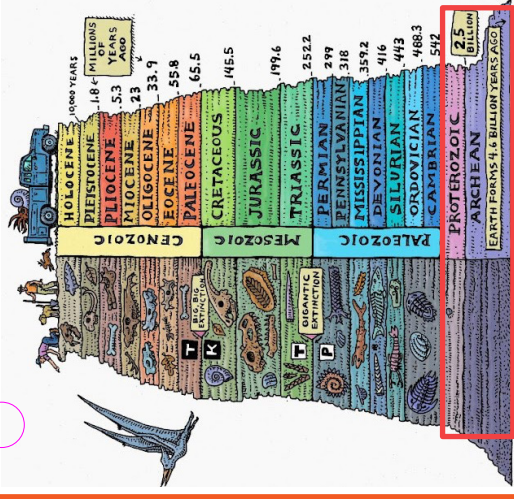

.....

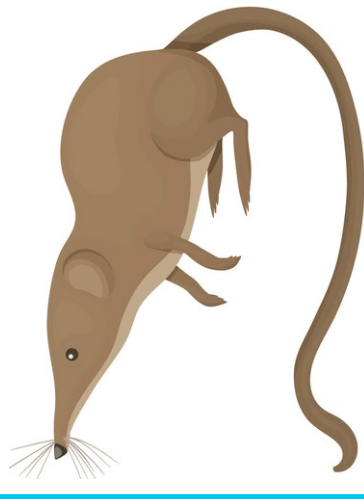

Disgusted

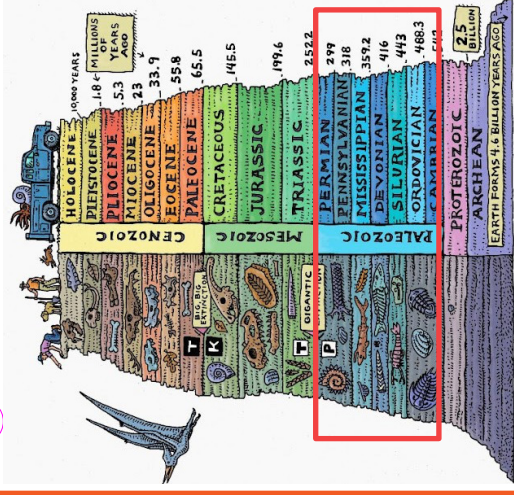

.....
